

AC 29-5-15

Item No. 4.11

Recommendations of Faculty of Science

Scaling down was introduced with 60:40 marks pattern of examination. But now the examination pattern is changed to 75:25 marks pattern. Hence it was discussed in the faculty meeting that the scaling down should not be done with the new pattern. It was also discussed in the review committee meeting.

Circular to that effect needs to be taken out. The matter is to be considered as urgent.
