1.4 Feedback System

1.4.1 Whether structured feedback received from all the stakeholders.

1) Students	2) Teachers	3) Employers	4) Alumni	5) Parents
Yes	Yes	Yes	Yes	Yes

1.4.2 How the feedback obtained is being analysed and utilized for overall development of the institution? (maximum 500 words)

Departments at the University of Mumbai have taken feedback from students and teachers at the end of every term & subsequently it is consolidated, and the information is passed on to all faculty members. The faculty members are asked to give a written analysis of the same and actions taken for further development. The suggestions for improvement are implemented in the subsequent semesters. We would like to highlight some of best practices from Departments as an illustration.

For instance, the feedback taken by the department of Computer science of the first batch of the New MSc syllabus told them their difficulty in attending the Semester IV classes and the short internship. The classes were preponed as much as possible and the remaining ones were scheduled on weekends so that the students could focus on internship during the weekdays.

Also, on the receipt of the results of TAQ, the Faculty-in-charge of the department of Economics does decoding and hands over the feedback sheets as well as the TAQ results sheets to the Director. The results of the feedback are to be obtained in duplicate (one to be handed over to the concerned teacher by the Director and the other copy to be maintained at the Strong room.) The Director discusses the Feedback with the teachers individually and encourages them to make improvement in the score if needed.

At the departments there is a Feedback Committee that takes care of analysing the feedback on the basis of which necessary steps are taken with respect to curricula design and implementation, infrastructure, library facilities, teaching-learning process, time-table, extra-curricular activities, etc. to ensure that high quality in teaching-learning process is maintained. Feedback from students for teachers and courses is reviewed by individual faculty and director and appropriate measures are taken. Student feedback is taken semester wise regarding the academic issues & general facilities including canteen, general hygiene and cleanliness. The actions to problems of urgent /Immediate nature are addressed by the authority immediately. b. Teachers Feedback: Teachers also assess the students through various mechanisms such as regular interaction with students, quizzes, assignments, daily attendance and regular internal tests / group presentations / Individual presentations. Accordingly, the students are assessed, and marks awarded to them as per the university guidelines/policy. The internal and external theory marks then become the final end semester achievement of the student.

1.4.3 Curricula developed/ adopted have relevance to local/ national/ regional/ global developmental needs with learning objectives including programme outcomes, programme specific outcomes and course outcomes of all the programme offered by the university

Curricula is updated from time to time to ensure that curriculum is relevant as per local/national and global requirements. In today's global world the local impacts the national which has direct bearing on the international. The Alkesh Dinesh Modi Institute makes sure that the board of studies of University of Mumbai has at-least one industry representative to ensure that due industry connect is maintained. Rajiv Gandhi Centre for Contemporary Studies runs Master of Social Work two year course thus grooming the students to do Social work in rural, urban and tribal areas, centre also conducts community programmes in tribal areas for the development of the region, educating them about the importance of education, health, hygiene, self-employment, short term job oriented courses. The department of Civics and Politics has incorporated in its curriculum various issues having relevance to local/ national/ regional/ global developmental needs like- Urban Governance

in Maharashtra, Environment Conservation and Development in India, Human Rights in the Global Context, Women and Political Representation, Democracy, Pluralism and Citizenship etc. They also run P.G. Diploma in Human Rights. The course content of the Centre for African Studies has a National relevance as it feeds into India's foreign policy initiatives with Africa- which is of immense strategic importance as well as a local relevance while dealing with Western India, mainly focusing on economic ties the states of Gujarat and Maharashtra share with Africa. As a part of the Certificate course exclusively on India- Africa trade, conducted over all Saturday the department provides Industry- Academia linkages and trains students on the challenges and opportunities in the field. In the Department of English the courses such as Post Independence Indian Literature in English and Indian literature in English Translation allow students to learn about various regional cultures and social dynamics. Courses in ELT and English for Research Writing and Conferences prepare students for professional advancement and job market. Courses such as Australian Literature and American Literature make students better equipped as global citizens. The department of Geography has instituted Master of urban and Regional Planning which will be implemented from the academic 2019 to cater the ever increasing need of urban and regional planners.

1.4.4 Institution integrates cross cutting issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum

Over the academic year 2017-2018, departments across the Mumbai University have been incorporating cross-cutting issues of Gender, Environment Sustainability, Human Values and Professional Ethics into the curriculum. This is done mainly by offering courses or by organizing seminars and workshops or even including such issues as case studies. These various departments ensure that its content of the syllabi not only enriches the knowledge of the students but also makes them socially aware and conscious about such issues. We would like to highlight a few just as an illustration. The Phule Ambedkar Chair focussed on caste, class and gender issues prevailing in society. It looks at local social issues with an analytical lens and traces its connection to or impact on global issues. It also studies interconnectivity of all these issues by organizing lectures and seminars on linguistic expressions of women, dalit, adivasis and such other underprivileged sections of society. The Garware Institute of Career Education and Development, in order to create awareness related to environment and sustainability, organized an awareness program on 'Solid Waste Segregation Management' under the "Clean Garware, Green Garware Campaign" for the students from different courses of GICED. The awareness program was initiated to obtain the objective of 'Zero Waste Discharge' in the institute. This was part of the "Swachh Bharat Abhiyan". The Department of Law organized a series of Endowment Lectures which is related to issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics, in which renowned speakers like Chief Justice of Supreme Court of India, High Court Justice, social workers and activists shared their views and experience. The post graduate level in the Department of Commerce includes case studies of financial frauds and its outcomes whereby the economic sustainability of the country is endangered. As a global world what affects the local impacts the global Issues related to Gender Auditing are being addresses by the Women's Development Cell of the University of Mumbai.
