This phase has been acquired successfully by Mumbai University is not the miracle but it is the proof of constructive activities of Mumbai University which we mention with pride.

There is speedily development in the existing situation in the modern Higher Education field. In this regard the Mumbai University has taken definite steps.

While facing the new challenges in Educational field in regard to new Idealogy, the Professional syllabus has been prepared by the University under the guidance of the related subject experts. It is necessary to note that the research is an inseparable part of the study, inview of this amongst the Professors for encouragement of research System, the major and minor research projects have been undertaken, and for this purpose the University has planned big schemes of prizes, with the result that amongst the students the research tendency has started increasing and with this intention the University has offered Scholarships in the different Departments.

In regard to the acceptance of new challenges in the Educational Field various departments in the University along with Garware Professional Development Education and Development Institutions, Extra Mural Study Department, Folk Art academy, Stage Performance Department have been established with the Assistance of Mumbai University which are the fundamental Science Center, the Nanoscienses, Nano technology have under taken new research projects which are complimentary to their autonomy through this philosophy of confecious, mendarin Language, Chinese Art, Music, Culture and Marshall Art intended to be started. There is no doubt all these courses will bring radical changes in the Educational Culture of the Mumbai University.

The Mumbai University which have been pursuing the best has been awarded in the year 2012 from NACK “A Grade”. This is a grade pride. In this regard the Academic Staff College in the Westen Religion first Honor and in the country seventh Honor are granted. In order to acquire speedy progress in the Higher Education field the Mumbai University has signed a number of memorandum of understandings. In the University Colleges which are in forefront, University and cluster Colleges a kind of understanding has been created in the Educational and Administrative field in addition to this the University has under taken different programmes of

Administrative Reforms, Decentralization of Power and Training to the Employees. For making the women self sufficient and independent and to create confidence amongst them for this purpose the University has undertaken a self protection training program for girls. With this intension itself a book by title “Nirbhaya : one introspection” has been written. Thus, for creation of good social value amongst these students, not only in our country but throughout the world, it is an effort of the University to make them responsible citizens with competency. The Professor and the students are a inseparable part of a Society. In view of this, the area of University has been decorated, and because of this best of best facilities have become unique. Inview of this necessity of the Professors–Students, in Fort, Kalina, Thane area, Ratnagiri, Kalyan, Sub-centers have been established.

The past on Mumbai University is excellent, equally the presence is encouraging. The knowledge power on Mumbai University is inexistence in the city, this is the real specification of the Mumbai University. Exchange of knowledge, Mutual Cooperation, Joint Research Projects and Agreement for creation of basic knowledge for which till today the University has entered into agreement with other Institutions with the help of these countries.

The role of Mumbai University till today is of knowledge conservation and promotion inview of the future true identity of the Mumbai University. The Annual Report of the University which is in your hand, if lifted it will display its identity with more competence is my firm opinion.
