In the field of music , a different style was created by mixing Iranian and Indian music to sing this form.</p> <p>This Arabic word means talking to women or about women.</p> <p>A Ghazal is a group of couplets written in the same meter and rhyme. The first couplet is called matla. The last couplet of a ghazal is called maqta. The poet usually writes his name in the maqta. Generally, ghazals have an odd number of couplets (such as three, five, seven...) <sup>[1]</sup> A ghazal can have from 5 to 25 couplets. These couplets are independent of each other. Sometimes more than one couplet together gives a meaning. Such couplets are called qata band.</p> <p>The rhyming words in a couplet are called kaafiya and the words repeated in the couplets are called radif. The line of a couplet is called misra. The kaafiya is used in both the misra of the matla and in the second line of the subsequent couplets. The radif always comes after the kaafiya. The radif and kaafiya can be parts of the same word and there can be a couplet without a radif that ends with a kaafiya.</p> <p>The best verse of a ghazal is called Shahe Bait. A collection of ghazals in which there is at least one ghazal in every letter is called Diwan . The first Diwan poet of Urdu is Quli Qutb Shah.</p> |
