## Colloquium Theme

'The field of education has seen a drastic change in the past two decades. The changing scenario of world economy and advancement in information and communication technology has resulted in the beginning of many new trends in education. Modern day education is all about innovation, accessibility, and suitability. From kindergarten to university, students are encouraged to learn through interactive and practical tools. Higher education is more career-oriented today than ever before. The barriers of time and age have also been removed, while geographical boundaries don't matter anymore. These revolutionary trends have benefitted those people who want to get practical knowledge for their personal and professional growth.
