Various training, awareness programmes were organised for understanding the impact of climate change and status of achieving sustainability through curricular development and interweaving it into internal assessment and evaluation to understand how the students take various academic trainings and discourses to understand the actual implications of climate change and sustainability practices.

1. Weightage has been for getting involved in various activities like wetland monitoring, documentation, maintenance of the sewage treatment plant, worm-based composting, etc.
2. The students are also given the research topics for their dissertation revolving around the themes on sustainability and climate change. For example, these are some of the themes students are encouraged to work
 1. Nishant Surte : Cities and Circular Economy: A Case Study of Plastic Recycling in Mumbai with special reference to Dharavi (10 credits)
 2. Aniket Kumar Analysing the effectiveness of Terrace Gardens as climate change mitigators
 3. Akash Gudekar URBAN HEAT - TEMPERATURE DYNAMICS OF MICRO REGION WITHIN WESTERN SUBURBAN

Various programs are organised with NGO Paryavaran Dakshata Mandal on wetlands.

On 19th January, 2024

A nature trail to wetland was organised. The following students participated in the wetland nature trail.

A training cum half day workshop was organised on the worm based filtration plant that was initiated as pilot project of WRI as a part of Climate Action Plan for Mumbai. 50 students and faculty were educated on nature based solutions.

The efforts are made to link various theoretical understandings with various kinds of practical exercises through research, assignments so that it can be brought under formal evaluation.

A handwritten signature in black ink, appearing to read 'Aparna Phadke', written over a horizontal line.
